About

Ishita is a full-stack developer & a 3rd B. Tech student at VIT Vellore, pursuing Electronics and Communication (Spl. IoT). She has 1 year of experience with web based tools & technologies. With her knowledge of IoT & love for development she builds secure and creative web experiences.

Work Experience

MERN Stack Trainer - Codebugged AI

March 2021 - May 2021

Formulated a course and hands-on projects for a 2-month MERN training.

React.js, Node.js, React Context, MongoDB, Git, REST, MVC, API Security

Software Developer Intern - Umbrette

Nov 2020 - April 2021

Built a full-stack solution for a freelance marketplace for job seekers and employers.

React.js, GraphQL, MySQL, Node.js, Websockets, OAuth2.0

Software Developer Intern - Codebugged AI

Aug 2020 - Nov 2021

Formulated a course and hands-on projects for a 2-month MERN training.

React.js, Node.js, React Context, MongoDB, Git, REST, MVC, API Security

Project Lead - HEED India

March 2021 - May 2021

Led a team of developers to build a website and a content management system for an NGO

React.js, REST, MongoDB, Node.js, Role based Authorization, PDF Generation, Handling media files

Projects

QuiCLI - A CLI based deployment tool

Deploy on VM | Dockerization of repos | Auto DNS Configuration | PORT management | CI/CD | Rollback to last stable release

ResuME - Auto-generate website using data from LinkedIn

This project is under development | Selenium | Node.js | Python fire | Bash | Git | Docker

Chat.io - One-One chat application

Real time | E2E Encryption (in progress) | Online and last seen status | Notification alerts | Request alerts

MediumRare - A Blog Application

Golang | Recommendation System | OAuth 2.0 | Elastic Search | Project is in final stage of development

Typeface - Rich text editor NPM Package for react

Lightweight | React.js | NPM

AtishiBoT - A discord chat bot and more

Moderator features | Music Player | Chat Bot | Google search | Stack overflow search | Web Scraping

Achievements

- 1st Runner Up At **Devsoc'21 Hackathon - Codechef VIT**
- Qualified For Nationals At **Microsoft Imagine Cup 2020**
- Projects Lead** At The Electronics Club - VIT
- Member Of The **Organizing Committee Of GraVITas**, The Annual Technical Festival At VIT.
- Coordinator At Parallax** - 2019, A Hackathon By TEC - VIT
- Speaker** At A Technical Workshop, **Sensored - 5.0, 2019**

Certifications

- AWS IoT: Developing And Deploying An Internet Of Things - Coursera, Offered By AWS
